

SEBASTIAN FICHTNER

Software architect and AI engineer. Since 2012: Apple-platform architecture and hands-on delivery for enterprise clients in insurance, health, media, and travel, plus original products and iOS teaching at FHNW.

EXPERIENCE

CEO, Software Architect Nohype AI GmbH	09/2025 - Today
Adjunct Lecturer University of Applied Sciences and Arts Northwestern Switzerland FHNW	09/2024 - Today
Expert Software Engineer, AI Engineering Topic Lead Zühlke Engineering AG	04/2023 - 05/2026
Independent iOS Engineer & Software Architect Fichtner Flowtoolz	12/2015 - 09/2025
iOS Engineer HolidayCheck AG	07/2015 - 11/2015
iOS & Web Developer Formigas GmbH, Socialbit GmbH	10/2012 - 05/2015
Research Assistant, Tutor Konstanz University	2008 - 2011
Soldier German Federal Armed Forces, Company staff, administration	10/2002 - 06/2003

EDUCATION

Certifications iSAQB - Certified Professional for Software Architecture, Advanced iSAQB - Certified Professional for Software Architecture, Foundation iSQI - Certified Agile Business Analyst iSQI - Certified Agile Essentials ACSP - Apple Certified Support Professional INLPTA - The Art and Science of NLP	
M.Sc. Information Engineering (grade 1.9) Konstanz University	10/2007 - 04/2015
B.Sc. Information Engineering (grade 1.4) Konstanz University	10/2007 - 04/2015
Computer Science and Media (17 courses/projects) Technical University Dresden	10/2003 - 09/2007
Fine Arts (minor degree, grade 1.3) Dresden Academy of Fine Arts	10/2003 - 09/2007

CONTACT

sebastian@nohype.ai
nohype.ai

LOCATION

Based in Switzerland
In-Person work in AT, CH, DE
Remote work

SKILLS

Software Architecture
AI Engineering
macOS & iOS Engineering
Product Strategy
Agile Methodologies
Technical Writing
Teaching, Public Speaking

VALUES

Simplicity
Transparency & Authenticity
Sovereignty & Ownership
Shared Measured Objectives
Principled Engineering

LANGUAGES

German (Native)
English (Near-Native)
Italian (Beginner)

SELECTED WORK

CLIENT WORK

Architecture and hands-on engineering. Apple platforms and AI features.
Plus strategic consulting, workshop facilitation, technical talks, recruiting.

Selected clients: Concordia, Springer, Sonova, Haufe, Sanitas, AIDA, Allianz

SMARTstop (Gotomo, for Burri): iOS architecture and delivery.
Gold, Best of Swiss Apps 2021, category Innovation.

ORIGINAL SOFTWARE

Codeface codeface.io
Mac app for software architecture analytics. Visualizes structure and quality of code via built-in language-intelligence. On the Mac App Store.

MacStack macstack.dev
Allows declaring all aspects of a Mac tech stack as config and applies it in place non-destructively. Available as Homebrew formula.

Olive Mail olivemail.ai
Existing email accounts as context for agents. Local CLI lets agents read, draft, and send (if permitted), without touching credentials.

Flowlist flowlistapp.com
An animated hierarchical task list that unifies note taking, creative writing & project management. On the Mac App Store.

Open-Source Libraries github.com/nohype-ai
Graph algorithms, observer pattern, LSP tooling, and more

TEACHING & PUBLISHING

Lecturer: Engineering Apple Apps
University of Applied Sciences and Arts Northwestern Switzerland FHNW

Book Co-author: iSAQB Glossary
iSAQB – International Software Architecture Qualification Board

Topic Lead: AI Engineering
Zühlke Engineering AG. AI engineering pilots.

Essays: codeface.io/blog
For example the series: "Zen in the Art of Software Architecture"

EXPERTISE

ARCHITECTURE

Changeability, Maintainability
Modular System Design
Domain-Driven Design
Clean Architecture
API and Interface Design
Architecture Visualization

DELIVERY

Question Requirements
Workshop Facilitation
Test-Driven Development
Rapid Iteration
Release Automation

AGENTIC ENGINEERING

Coding Agents
Quality Gates, Agentic TDD
Confidentiality & Integrity
Least Privilege for Agents
Project Harness, Task System
Subagents, Skills, MCP
Multi-Agent Orchestration

AI ENGINEERING

AI System Evaluation
Tools, Planning, Memory
Context Construction
Information Retrieval, RAG

APPLE ENGINEERING

macOS, iOS, watchOS
Swift, Objective-C
Async & concurrent Swift
SwiftUI, AppKit, UIKit
CLI & Backend with Swift
Code Signing & Release
