## CONTACT

sebastian@nohype.ai  
nohype.ai

## LOCATION

Based in Switzerland  
In-Person work in AT, CH, DE  
Remote work

## SKILLS

Software Architecture  
AI Engineering  
macOS & iOS Engineering  
Product Strategy  
Agile Methodologies  
Technical Writing  
Teaching, Public Speaking

## VALUES

Simplicity  
Transparency & Authenticity  
Sovereignty & Ownership  
Shared Measured Objectives  
Principled Engineering

## LANGUAGES

German (Native)  
English (Near-Native)  
Italian (Beginner)

# SELECTED WORK

---

## CLIENT WORK

Architecture and hands-on engineering. Apple platforms and AI features.  
Plus strategic consulting, workshop facilitation, technical talks, recruiting.

Selected clients: Concordia, Springer, Sonova, Haufe, Sanitas, AIDA, Allianz

SMARTstop (Gotomo, for Burri): iOS architecture and delivery.  
Gold, Best of Swiss Apps 2021, category Innovation.

---

## ORIGINAL SOFTWARE

**Codeface** codeface.io  
Mac app for software architecture analytics. Visualizes structure and quality of code via built-in language-intelligence. On the Mac App Store.

**MacStack** macstack.dev  
Allows declaring all aspects of a Mac tech stack as config and applies it in place non-destructively. Available as Homebrew formula.

**Olive Mail** olivemail.ai  
Existing email accounts as context for agents. Local CLI lets agents read, draft, and send (if permitted), without touching credentials.

**Flowlist** flowlistapp.com  
An animated hierarchical task list that unifies note taking, creative writing & project management. On the Mac App Store.

**Open-Source Libraries** github.com/nohype-ai  
Graph algorithms, observer pattern, LSP tooling, and more

---

## TEACHING & PUBLISHING

**Lecturer: Engineering Apple Apps**  
University of Applied Sciences and Arts Northwestern Switzerland FHNW

**Book Co-author: iSAQB Glossary**  
iSAQB – International Software Architecture Qualification Board

**Topic Lead: AI Engineering**  
Zühlke Engineering AG. AI engineering pilots.

**Essays: codeface.io/blog**  
For example the series: "Zen in the Art of Software Architecture"

# EXPERTISE

---

## ARCHITECTURE

Changeability, Maintainability  
Modular System Design  
Domain-Driven Design  
Clean Architecture  
API and Interface Design  
Architecture Visualization

---

## DELIVERY

Question Requirements  
Workshop Facilitation  
Test-Driven Development  
Rapid Iteration  
Release Automation

---

## AGENTIC ENGINEERING

Coding Agents  
Quality Gates, Agentic TDD  
Confidentiality & Integrity  
Least Privilege for Agents  
Project Harness, Task System  
Subagents, Skills, MCP  
Multi-Agent Orchestration

---

## AI ENGINEERING

AI System Evaluation  
Tools, Planning, Memory  
Context Construction  
Information Retrieval, RAG

---

## APPLE ENGINEERING

macOS, iOS, watchOS  
Swift, Objective-C  
Async & concurrent Swift  
SwiftUI, AppKit, UIKit  
CLI & Backend with Swift  
Code Signing & Release
